EXPERIENCE

Senior Software Engineer

Covetrus Inc

Mar 2021 – Jul 2022, Aug 2023 – Present

- Contributed to the support and security maintenance of various legacy Spring applications.
- Worked with multiple teams to develop new features to an online prescription management system.
- Worked on developing and deploying a third-party prescription management integration for external veterinary practice management systems (PIMS).

Full Stack Software Engineer

360Fuel

Oct 2020 – Mar 2021 Lafayette, LA

- Developed a micro-service that facilitates kiosk and mobile ordering.
- Iterated on the development and deployment of 360Fuel Android application.
- Integrated embedded-systems such as card readers and printers on to gas dispensers.
- Developed a client facing web ordering dashboard in React / Next.JS.

Full Stack Software Engineer

Gophr App Inc

May 2019 – Oct 2020 Lake Charles, LA

- Developed a mobile marketplace application using React Native.
- Developed internal and merchant facing responsive dashboards using ReactJS.
- Developed a product information management system using ReactJS, MeteorJS and Apollo GraphQL Server.
- Designed and implemented the company’s cloud infrastructure in AWS.
- Designed and developed multiple micro-services in ExpressJS and full-stack applications in Django and MeteorJS.

Junior Software Developer

360Fuel

Nov 2017 - May 2019 Lake Charles, LA

- Developed a prototype of a dispenser media player in Android.
- Developed multiple REST APIs and full-stack web applications using Django Framework.
- Developed various software components for a self-order kiosk and food ordering mobile app.
- Developed an internal tools web dashboard in AngularJS.
- Developed embedded systems that facilitated content delivery.

SUMMARY

I am a driven full-stack engineer with experience working in the fields of IoT and e-commerce. I’ve recently completed a master’s degree in Computer Science at University of Louisiana Lafayette. I’m a skilled team player with experience in leading multiple teams and projects. I’m always seeking interesting challenges to improve my personal and professional skills.
